

CATHY DeWITT

*“...an extraordinary artist, musician,
healer and transformational leader.”*

Well-versed in many musical genres, Cathy DeWitt is a singer/songwriter, pianist, guitarist, and harp therapist, internationally known within the Arts in Healthcare community for her knowledge and scope of practice. She has been a Unity Music Director and touring New Thought musician for over twenty years, working with Revs. Sharon Connor, Marciah McCartney, Peggy Hostetler, Mary Masters, Jennifer Sacks and more. She has been a guest musician and speaker at spiritual retreats, churches, and events throughout the country, and provided music for Alan Cohen, Marianne Williamson, Wayne Dyer and others. Several of her songs are published by Unity Association.

In conjunction with her new CD release, *The Traveler*, Cathy is presenting **The Words of James Dillet Freeman in Music, Message and Meditation**. This program offers a deep exploration of the philosophy and poetry of James Dillet Freeman, and how reconnecting with our own creativity can enhance and enrich our lives. Cathy presents this as a Sunday morning service, meditation service, or a participatory songwriting/poetry workshop.

“I have had the privilege and joy of working with and knowing Cathy DeWitt both as musical director at Unity of Gainesville, FL, one of the directors of the Arts In Medicine program at Shands Hospital, an amazing jazz performer and one of our New Thought Posi-nominated singer song writers. Her style is one of a kind, her gifts are multidimensional and her ability to enchant an audience is sublime. Cathy’s newest album, “The Traveler” shines the light on James Dillet Freeman’s poems, enhancing the meaningful words of Unity’s Poet Laureate with her unique talent for creating beautiful music. She is an extraordinary artist, musician, healer and transformational leader.”

Rev. Marciah McCartney

“Cathy’s presentation was a blend of music and information, showmanship and audience participation, expertly led with humility and groundedness. We benefitted as well by experiencing how singing even a simple song raises spirits. Cathy’s message was inspiring to me, making me want to use my talents to give more service. She appears to be a self-actualized person, letting her creativity flow, and willingly sharing joy and well-being.”

Diana Kavoy - IONS Ocala, FL

“I have the opportunity to hear a great deal of New Thought/New Age music and what I hear in your music is not only a musician at the top of her craft, but also a performance infused with the divine energy of Source. Thank you so much for sharing this part of you with me!”

Valleri Jayne Crabtree - Unity.fm Host, Author, Speaker

“I want to thank you for touching my life this week with your soothing, peaceful music. God bless.”

Sally Hirsh, Workshop Attendee, N. Carolina

USING MUSIC TO SHARE THE MESSAGE OF UNITY AND NEW THOUGHT

Cathy leads and organizes regional retreats and performances for Unity and other groups. She has presented concerts for workshops and lectures featuring Bernie Siegel, Larry Dossey, and Deepak Chopra, as well as sharing the stage with many well-known musicians including Pete Seeger, Arlo Guthrie, Lesley Gore, Dave Frischberg, Sloan Wainwright, Faith Rivera, Harold Payne, Greg Tamblyn, David Roth, Richard Mekdici, and Sue K. Riley.

Cathy offers several interactive workshops and musical Sunday service messages, including:

Unexpected Journeys: Resistance is Futile! As a Sunday service, this tells the personal story of my discovery of Unity as well as my own leap into Arts in Medicine—bringing music into the healthcare environment—which was a complete detour, and resulted in a rewarding career. What we resist not only persists, but also can bring us the most valuable experiences of our lives. A workshop that inspires the practice of faith in the unknown, and becoming open to the messages of the Universe.

Rhythms of the Universe: A participatory and fun workshop taught in conjunction with husband Rob Rothschild, a professional drummer for over twenty years. This program helps people find their own rhythm, dance and play in a safe and loving group setting. Instruments for all are provided. Create chants from your own affirmations, and play instruments to create an alternate sound environment.

Creativity, Community and Comfort through Music: Music has been associated with healing through the ages. In this experiential workshop we will use music to trigger memories, create community and enhance mood. We'll explore the unique way music creates both an individual subjective experience and a unified group experience; opening us to emotional, mental, spiritual and physiological effects. Includes exercises in listening, singing, and playing instruments.

A few of the churches where Cathy has been guest musician or worship leader:

In Florida:
